From Publishers Weekly

Starred Review. Afghan-American novelist Hosseini follows up his bestselling *The Kite Runner* with another searing epic of Afghanistan in turmoil. The story covers three decades of anti-Soviet jihad, civil war and Taliban tyranny through the lives of two women. Mariam is the scorned illegitimate daughter of a wealthy businessman, forced at age 15 into marrying the 40-year-old Rasheed, who grows increasingly brutal as she fails to produce a child. Eighteen later, Rasheed takes another wife, 14-year-old Laila, a smart and spirited girl whose only other options, after her parents are killed by rocket fire, are prostitution or starvation. Against a backdrop of unending war, Mariam and Laila become allies in an asymmetrical battle with Rasheed, whose violent misogyny—"There was no cursing, no screaming, no pleading, no surprised yelps, only the systematic business of beating and being beaten"—is endorsed by custom and law. Hosseini gives a forceful but nuanced portrait of a patriarchal despotism where women are agonizingly dependent on fathers, husbands and especially sons, the bearing of male children being their sole path to social status. His tale is a powerful, harrowing depiction of Afghanistan, but also a lyrical evocation of the lives and enduring hopes of its resilient characters. (May)

A Thousand Splendid Suns raises inevitable comparisons to *The Kite Runner*, which sat on *The New York Times* best seller list for 103 weeks. Most critics agreed that Khaled Hosseini's second novel is as devastating, if not even more powerful, than his first. A natural, if not always the most eloquent or subtle, storyteller, Hosseini gives voice to two women trying to survive in a despotic household while caught up in the throes of war. Most critics thought that Hosseini successfully evokes his female characters' inner lives—not an easy feat for a male author—while a few observed that Mariam and Laila fail to resonate emotionally. Others noted some melodrama and predictability. Despite these quibbles, the novel offers a chilling, all-too-real portrait Afghan life. "It is, for all its shortcomings, a brave, honorable, big-hearted book" (*Washington Post*).

A THOUSAND SPLENDID SUNS BY KHALED HOSSEINI PDF

Propelled by the same superb instinct for storytelling that made *The Kite Runner* a beloved classic, *A Thousand Splendid Suns* is at once an incredible chronicle of thirty years of Afghan history and a deeply moving story of family, friendship, faith, and the salvation to be found in love.

After 103 weeks on the New York Times bestseller list and with four million copies of *The Kite Runner* shipped, Khaled Hosseini returns with a beautiful, riveting, and haunting novel that confirms his place as one of the most important literary writers today.

Born a generation apart and with very different ideas about love and family, Mariam and Laila are two women brought jarringly together by war, by loss and by fate. As they endure the ever escalating dangers around them—in their home as well as in the streets of Kabul—they come to form a bond that makes them both sisters and mother-daughter to each other, and that will ultimately alter the course not just of their own lives but of the next generation. With heart-wrenching power and suspense, Hosseini shows how a woman's love for her family can move her to shocking and heroic acts of self-sacrifice, and that in the end it is love, or even the memory of love, that is often the key to survival.

A stunning accomplishment, *A Thousand Splendid Suns* is a haunting, heartbreaking, compelling story of an unforgiving time, an unlikely friendship, and an indestructible love.

A Thousand Splendid Suns

By JustReading2008

To be honest, I didn't think I would finish this book. I got through perhaps the first 50 pages and thought, there is no way I can finish this. I got through the first 100 pages and thought, I definitely will have to stop reading this. But, as you can see, I did finish it, and feel compelled to rate it 5 stars.

This is **not** light reading. It is extremely heart-wrenching from start to finish. (I would also say that, if you are a survivor of domestic violence, be prepared for very descriptive passages of beatings, rape, strangulation, isolation, and other horrific abuse.) From the horrors of abuse to the horrors of war, this book does not leave any dark part of the human heart unexplored. And that is why it is so difficult to read.

At the same time, it was not a book I could give up on. The character dynamics in the book are so complex that, after a while, they truly seemed like real people. The enduring power of Mariam's spirit is, all at once, beautiful, inspiring, and heartbreaking. And, even in a time of war, love and friendship ultimately survive.

This story also gives some insight to Western readers about what Afghanistan was like, pre-9/11.

I highly recommend this book and will be reading more by this author.

Awe-inspiring, a work of art

By MaryG

I don't think I can put into words the effect this book had on me. The harshness of life in Afghanistan, especially for women, is written with such love, such gentleness, and such compassion that it takes the reader through the most tragic events without manipulation or excess. That in itself is remarkable. But the author's depth of understanding is beyond extraordinary. I came away with a knowledge about so many important things in life. If you find it hard to empathize with this culture, if you find it hard to comprehend the depth of its complexity, I urge you to read this book. My heart broke a thousand times, but I came away with gratitude and a sense of connection I never thought would be possible. Beautiful, beautiful work.

The BEST Book I Read This Year! Overall Top 10!!

By JM

I'm more of a thriller, mystery, true crime reader but a friend of mine kept insisting that I read this book and I'm soo thankful to her! This book is an Amazing read! It's a tale of both devastation and hope...love and loss. I knew a lot of the background history of the war in Afghanistan/Soviet occupation from a documentary I watched on Massoud but I never realized how life was for the ordinary individual especially for women in Afghanistan at the time. Khaled Hosseini gives such a intimate insight into the reality of the lives of women during this time through his characters Mariam and Laila. The strength of the characters is unparalleled as they struggle to get by in a world that makes them feel beyond unwanted. I could go on but I just recommend this to everyone. You'll develop a new appreciation for life! Warning: have tissues near by!

myself foregoing food or sleep temporarily to get in just one more chapter. When I had put it down, however, I felt no particular compulsion to pick it back up again. It's a good book, and a relatively well-written one, but it's not a great book. Enjoyable without leaving a lasting impression." Read Robert P. Beveridge's review

B. Marold: "While the events in Afghanistan and the wider world create a familiar framework for the stories of these two women, it is nothing more than a framework. The warp and weft of everyday life, and the interaction of the two women and their close relatives is the heartbeat of the story." Read B. Marold's review

Daniel Jolley: "Khaled Hosseini has written a majestic, sweeping, emotionally powerful story that provides the reader with a most telling window into Afghan society over the past thirty-odd years. It's also a moving story of friendship and sacrifice, giving Western readers a rare glimpse into the suffering and mistreatment of Afghan women that began long before the Taliban came to power." Starred Review. Afghan-American novelist Hosseini follows up his bestselling *The Kite Runner* with another searing epic of Afghanistan in turmoil. The story covers three decades of anti-Soviet jihad, civil war and Taliban tyranny through the lives of two women. Mariam is the scorned illegitimate daughter of a wealthy businessman, forced at age 15 into marrying the 40-year-old Rasheed, who grows increasingly brutal as she fails to produce a child. Eighteen later, Rasheed takes another wife, 14-year-old Laila, a smart and spirited girl whose only other options, after her parents are killed by rocket fire, are prostitution or starvation. Against a backdrop of unending war, Mariam and Laila become allies in an asymmetrical battle with Rasheed, whose violent misogyny—"There was no cursing, no screaming, no pleading, no surprised yelps, only the systematic business of beating and being beaten"—is endorsed by custom and law. Hosseini gives a forceful but nuanced portrait of a patriarchal despotism where women are agonizingly dependent on fathers, husbands and especially sons, the bearing of male children being their sole path to social status. His tale is a powerful, harrowing depiction of Afghanistan, but also a lyrical evocation of the lives and enduring hopes of its resilient characters. (May)

A Thousand Splendid Suns raises inevitable comparisons to *The Kite Runner*, which sat on *The New York Times* best seller list for 103 weeks. Most critics agreed that Khaled Hosseini's second novel is as devastating, if not even more powerful, than his first. A natural, if not always the most eloquent or subtle, storyteller, Hosseini gives voice to two women trying to survive in a despotic household while caught up in the throes of war. Most critics thought that Hosseini successfully evokes his female characters' inner lives—not an easy feat for a male author—while a few observed that Mariam and Laila fail to resonate emotionally. Others noted some melodrama and predictability. Despite these quibbles, the novel offers a chilling, all-too-real portrait Afghan life. "It is, for all its shortcomings, a brave, honorable, big-hearted book" (*Washington Post*).
