Good reference book

By Shadow251

I had this book before and loaned it to a friend who never returned it. This is the same cover I had before too. I wanted to have it again to re-read and refer to points that Cayce had made regarding changes on Earth that were coming, which he saw while in a trance. Geologists have proven points he made and predictions as well. I was happy to get a good copy that was used back into my hands. This is a good book to have to see what other predictions Cayce made before his death and I would recommend it to anyone interested.

Interesting.....

By Nicholas M. Marchioli

Although this book deals mostly with the medical diagnosis' Edgar Casey delivered, as opposed to global predictions, I enjoyed it.
