Strong personalities—volatile marriages—stressful careers—conflicting goals—difficult children.

Contemporary challenges facing close-knit families form the crucible that forges a new generation.

Brandis, Gabriel, Blair and Lillian emerge from the entanglement of their parents' longstanding emotional connections, but one's star will burn brighter – and hotter – than the others.

With a personality that consumes everyone and everything in its path, Brandis Gordon struggles to maintain control as he ricochets between wild success and miserable failure. His life proves how even the strongest relationships can be strangled by the ties that bind.

Brandis and Gabe Frietag are as close as any brothers, bound by both loyalty and fierce rivalry. The strength of their ultimate alliance is tested time and again by Brandis' choices.

Companions from birth, Blair Frietag and Lillian Robinson share loner tendencies, but come to rely on each other through adolescence. As they mature, both are forced to confront their feelings for the men they knew as boys.

Somewhere between the tangle of good memories and bad, independence and addiction, optimism and despair, the intertwined destinies of the new generation finally collide, leaving some stronger, others broken, but none unscathed.

As a chronicle of three families navigating the minefields of teen years into the turbulence of young adulthood, Good Faith holds up a literary mirror to contemporary life with joys and temptations unflinchingly reflected. Its fresh, real-life voice portrays the sheer volatility of human nature, complete with the hopes, dreams, and unexpected setbacks of marriage, parenthood and “coming of age.”

Perfect Ending!

By Simply Just Jen

I was truly humbled when I was given an ARC of this book. I could not put it down. Thank you so much Liz Crowe for this great honor. What to say about this amazing completion to a series that has blown me away. I can only say that this book was phenomenal. If you have never experienced a Liz Crowe book then as a

reader you are missing out. Although we get the continuing story about Jack Gordon and the Stewart Realty family this book is definitely not a romance. This is ultimately the story of addiction and the trials and tribulations of a family's ability to cope. This is a hard core look into tough love. It is a powerful ride that will have you laughing, cussing, loving, and crying.

This is the story of Brandis Gordon, son of Jack Gordon, and his addiction. Brandis has everything in life the looks, wealth, popularity and an addiction. His addiction causes turmoil with his entire family. His parents are at odds over how to help. His addiction has affected everyone who has touched his life. At what price will he have to pay before he can overcome this powerful demon? So I know your asking what about Jack and Sara and the Stewart Realty gang. This book is totally about them. It is about them as parents and raising their children. We get plenty of that steamy chemistry of Jack and Sara. In the end it is about their legacies becoming adults and life coming full circle.

As a fanatic Liz Crowe fan, I expected to feel every emotion that these characters face and she did not disappoint. Liz's ability to make me feel as if I'm living the story is amazing. She has put together a very real look into what many family's with loved ones,as addicts go through everyday. Some of the scenes in this story were so spot on as to what happens it made me feel like I was reliving some of my own memories. I loved that Liz managed to incorporate every single character that she has ever written in the Stewart series into this book. I went back and couldn't find not a single person that she left out. This book will floor you at times but isn't that why most of us read. I can honestly say that I now have a new favorite book in the series. For me this book, was the perfect conclusion to some amazing characters.

Liz Rocks the New Adult Genre!

Good Faith

by Liz Crowe

Good Faith is a journey from beginning to end. It's the story of three families and the choices that everyone makes. It's not a romance but a contemporary/literary fiction. The characters are flawed and human with needs, desires, and weaknesses. Those shortcomings stare you in the face and make you contemplate your own life. Each character is a combination of good choices and bad choices. It's how they choose to live their lives in spite of all their mistakes that makes this story powerful.

Liz Crowe has written a story I could relate to on a gut level and submerge myself into. The emotional journeys which each person takes deeply resonated with me. I didn't want to stop reading or put the book down. Even a few days after reading it, I'm still thinking about it and pondering the story's complexities. There's so much to absorb as characters come full circle and life alters each and every one of them.

As a parent of four young adults, I could identify most with the adult characters, Jack, Sara, Rob, Lila, Craig, and Suzanne. They were me at one time in my life. Also I could relate to the challenges of parenting the teenage years that they faced. We hope as parents that our children won't make the same mistakes we did, even if we tell them not to, but sometimes our children have to learn it on their own. Other people really connect with the younger generation and their struggles. I love that no two people have the same experience with this book. Each reader has their own encounter and comes away with different opinions and feelings.

Fans of the Stewart Realty series will certainly want to read this book as it completes the series but you don't have to have read any of the other stories to love this book. Good Faith is a stand-alone novel that will

delight fans of Alice Munro's life complexities stories.

Expect the Unexpected!

By Lisa Kane

I have previously read and loved Liz Crowe's Stewart Realty series, I think that's due to my fascination with Jack Gordon and Sara Thornton. The chase, the rejection, the dance and most of all-the explosive chemistry sustained me through the longest journey I think I have encountered in a love story. They now have three kids; Katie, Brandis and Bethany. Good Faith is centered around Brandis Gordon.

When the story first begins, Katie is studying for med school, Brandis is the ultimate bad boy getting into just about everything and every girl he can. He is gorgeous, athletically gifted and savvy. Bethany is a few years younger and hasn't kicked up too much dust to this point.

There is a great deal of intermixing from the life long friendships developed in this series. Rob and Lila Freitag have two children, Gabe and Blair. Evan and Julie Adams have twin girls June and Claire. Suzanne and Craig Robinson have Lillian Grace, and Maureen and Rafe Inez have their son little Blake, her older children are married with families of their own. Of course we can see some pairing with this clan. Blair has been in love with Brandis probably since birth and Gabe and Lillian have some similar feelings developing.

As the year progress, there are many changes. Brandis in spite of his manwhore ways, has deep feelings for Blair. Unfortunately, he has an equal love for alcohol, sex and drugs. His years of extra coaching for football pay off and he gets a scholarship to the University of Michigan as the starting quarterback. He is lonely, misses Gabe, who decided to go to a different college and Blair who helped him stay centered from his demons. As hard as he tries, the demons win.

"I'm not blind. I just choose to believe him when he tells me he's clean. You might consider that too. It would go a long way toward him trusting you. Jesus, you'd think you were gonna make him pee in a cup every day just to prove it."

Brandis breaks Blair's heart and spirit many times over. Sometimes when you have everything you really have nothing that counts. Brandis is in over his head and spirals out of control. To witness the dysfunction in the Gordon house is painful. This family has never been the Cleavers but this is a whole new level even for them. Despite their every effort, Brandis is in a deep, dark place and his problem has devastating ramifications for those who love him most.

The sound of his wife's name, caressed slowly by the voice of another man made Jack's teeth ache. He shut his eyes, took his hand off the door and started to back away. He deserved this.

There is a level of depth to this novel, that I have seen previously in *Essence of Time*. Crowe is never afraid to "go there"- to do the things other authors would never do to characters. These sacred cows that readers have come to know and love are not off limits to her. There are infidelities, and betrayals and indiscretions. Some of which totally shocked me, somehow as a reader I became too comfortable with these characters, assuming they would avoid temptations that mere mortals wouldn't.

"Why are you so angry?" Rob asked, his voice soft. "I'm not angry. I just hate you."

About 65% in, my heart cracked wide open and started hemorrhaging. I found myself sobbing out loud and telling myself this could not be happening. But it did, and in spite of that I kept reading. Watching this latest

generation of characters, fall and stumble and stand again brings this series full circle. Brandis is 30 at the end of this story and he and his siblings and his friends are scarred and wiser and so much more likable than at the outset of their journey.

Crowe has done a magnificent job with this book. She gutted me, but somehow the pieces of the puzzle all fit and life continues and goes on. I am a weary traveler on that journey, it was bittersweet, but I am the better for having taken the road less travelled.
