A great help to my wife

By Ralph E. Dratman

A great help to my wife, who is refreshing her high school German. Harry Potter translations are the most fun way to learn a new language! We also have the audio version in German, and (what is essential) the British version of the original novel, which seems to be the text from which all the translations are done. The American version would no doubt work, but would be inexact in some paragraphs and sentences.

By Yooks

What can I say? Harry Potter is a good book. I'm using it to work on my German vocabulary, and it's much preferable to chugging through a dry german text.

The artwork is lacking compared to my American copy, but I didn't buy it for the artwork. :)

Great learning tool.

By Mark Fountain

My interest is not in Harry Potter as a story (although it is excellent). This is in regard to using the German translation (along with the Audible books recording) to kick-start some moribund language skills. And for that purpose, it is fantastic. I only wish these tools had been available a couple of decades ago.
