More than a Quicky

By T. RHODES-O NEILL

Greetings. I love Linda Howard, but I don't always enjoy everything she writes. After MacKenzie's Mountain, I expected another romance where someone would get wooed, but instead I got free sex and no heart. I was finally glad to learn what happened to Joe that shut him down as a kid when Wolf got him back, although I knew it would have to be pretty bad to shut down such a strong character, Howard wrote it very well and with taste. She positioned it well in the novel and supporting events that continued the tone and mood of the scene. She is an exceptional writer with lots of twists and turns in the book, but I just did not feel like their story was a tale of falling in love. They were more like, hey let's do it, ok, and that was it. The surrounding tale was intriguing and I greatly enjoyed the mystery, but I really would've liked more sexual tension between the characters, more courting and heavy petting, and if the novel lasted more than a weekend, cool. The novel felt a little like their love life, wham bam thank you ma'am. I would have liked more time.

The MacKenzie story continues

By Carole Cruder

Another great story about the MacKenzie family. Joe is the oldest of the Mackenzie brothers, and he is fulfilling his life time dream of being a pilot in the army. He has worked his way up to Colonel and is in

charge of testing new aircraft. He meets Caroline, who is on the team helping to do the ground work involved in testing the aircraft. The plane is being sabotaged and Joe thinks Caroline is part of that team. Joe needs to solve the sabotage of the plane while dealing with his growing feelings for Caroline. Having read the first book in the series, MacKenzie's Mountain, it was good to catch up with an older Joe's life.

An Excellent Sequel

By bratcat22

An EXCELLENT sequel to Mackenzie's Mountain. The story focuses on Colonel Joe Mackenzie , pilot in the USAF. With the help of his stepmother Mary, Joe has achieved his dreams of being a pilot in the US Air Force. He's assigned to help a group of scientists developing new technology for planes. Assigned to the project is weapons engineer Caroline Evans who catches Joe's eye! Things get complicated when a saboteur tries to derail the project & Caroline becomes the main suspect. Read the book to find out what happens next.
