One of the best make money online books I have read No hype just great strategies for anyone who's willing!

By Fabio Mastrocola

So much value - including Free Access to very valuable replay software- that was the cherry on top -thank you. I think with so much information out there on making money online the 16 methods outlined in this book not only made sense but have inspired me as it will any one who reads this book to take action.

The strategies are outlined step by step and straight forward to follow and in my opinion realistic and not hyped up. The 16 methods are actually 16 online business models - Thank you Steve and Corinna for sharing and your generosity. 6 of 6 people found the following review helpful.

Webinars Are A Great Way To Generate Huge Incomes Online. And This Book Puts You On The Right Path.

By Claude Whitacre

A couple of very small gripes....The title is misleading. I understand the title, and why it was chosen. Who doesn't want "Money On Demand"? The title reminds me of Think And Grow Rich. A perfect title with wide appeal, serving a near universal want. I still gave the book 5 stars, because the book description on the Amazon sales page actually explains that the book is about webinars.

The book covers..in varying amount of detail...16 different ways to make money with webinars. Several scripts are revealed, a complete webinar invitation template, a webinar replay e-mail template, a complete webinar facilitator invitation template (to sell webinars to business owners), an excellent sample structure of a successful selling webinar (worth the price of the book itself), All included in this book.

My favorite sections were the one on how to sell on a webinar if you have no product...by simply selling future instructional webinars...and the section on using webinars to create a seminar with multiple speakers, each promoting the webinar event to their list.

You also get several mentions of gotowebinar.com as your preferred webinar provider.

I should mention that I'm a sales author and sales speaker, and I've sold high end training from the stage. It really can't be sold well on a website. You need a real sales presentation. And webinars are the closest thing to live I've seen. In fact, I know several gurus that sell programs costing several thousand dollars...from a single webinar. If you have a product or service that costs more than \$500...and especially more than \$1,000 webinars are the best way to sell the program, with the exception of doing it live, in front of an audience.

This book gives you most of what you need to know to make all that happen.

On a separate note, talking about the structure of the book...the writing is excellent. And the first section of the book explains the different advantages of selling online...and then the advantages of choosing webinars as your vehicle. The reason I think it's brilliant is..it gives service to the title, by giving you some up front mentions of how to make money online, and it just naturally flows to webinars.

Although the authors have an app that you can download (mentioned at the end of the book), I was waiting for a high dollar service that they were selling. Nope. In fact, I'm a little disappointed.

A last note, the section on how to use webinars to interview authors and experts should be perhaps the first place you look to start in webinars. These interviews and contacts will help you when you are ready to promote your own webinar selling a high end service/product. You'll need joint venture/affiliate partners to help you promote...and these experts can help you with that. And that's one reason to do the interview first.

The book was well worth the investment. I bought both the Kindle and paperback version. 2 of 2 people found the following review helpful.

Very helpful.

By Billy J. Sprous

Steven & Corinna Essa wrote this book based on their own experiences, not just some advice that was handed down from person to person, but instead, on what they knew personally.

The book goes on to teach and instruct the reader on how they may make their own fortune based on the teachings and methods of the writers.

Of course, there cannot be any absolute guarantees, but then again, if you do nothing at all, then nothing at all will happen. You can only get out of something if you put something into it. See all 31 customer reviews...
