A fun introduction to a lot of the important events in British history

By Bob Walch

This book is intended for young readers but adults will find it of interest too. From the ancient Britons to the New Millennium there are short but very informative brief accounts of the people and events that one should be familiar with if he or she wants to know the ins and outs of this nation's history.

There are plenty of humorous cartoons that illustrate this little book but that doesn't mean that the narrative talks down to the reader - it certain does not ! You can use this book as a quick reference or to give a youngster an overview of British history. You won't regret purchasing a copy (get the inexpensive paperback) of "Off With Their Heads!" because it really is a joy to read. I am pretty well versed in English history but I still found a few tidbits I didn't know before.

Book provided by the publisher.

Humorous history, great timeline.

By E E

Humorous history. Take this book with you when going to England. Great for adults and kids. I saw it in England, did not want to carry back, bought from Amazon when I got home. Great review of what I had seen and heard. Good gift.
