Excellent trilogy! :)

By Jo T.

Read as part of the anthology Purrfect Mates: BBW Billionaire Panther Shifter Boxed Set of which I received an ARC copy in exchange for my honest review.

Finally, we get to hear the end of the story and it includes some shockers! Tom is absolutely head over tail in love with Jacy, but Jacy isn't quite there yet, at least not enough that she doesn't still want to enact some sort of revenge on Tom. Obviously they make it through that with the help of, surprisingly, her father, Ronald. We see the most of him in this book and I enjoyed getting to know his character (he even has two chapters of

his very own). I think the agreement Tom and Ronald come to is great, and definitely not one they could've made a month prior. The latter of this book is completely happy with a really cute ending. The ending is definitely one of the HEA variety with no cliffhanger.

Wonderful story

By Elaina Myers

I very much enjoyed reading all three books. I liked both main characters and the story development. The story is a lighter read than some (there is drama, but no great tragedy) and that is exactly what I needed today! I also appreciated that the steamy parts were exactly that and also did not overwhelm the book; I like there to be an actual plot and story in the books I read (I guess I'm just weird that way.) :) Please write more stories. Also, I would love to see how things turn out for these characters in the future.

Loved All Three of the series!

By Kindle Customer

I think it's a dream that all women have at least once in their lives-- I know that there has been many a time that I would have if I could have changed a man into a black cat, although the particular man I referring to I would not have kept around but put him up for adoption! I really enjoyed the story and characters and am very glad that things turned out so well! Thanks for the great read!
