I need more!

By Jean

This is not a Richelle Mead "young adult" title. If you're looking for another Vampire Academy, this isn't it.

This one's finally for the adults out there.

No teen overdramatic relationships, . Though there is one teenager as part of the cast, this isn't a repeat of Mead's popular but less mature vampire world.

But it's not wonderfully raunchy pornographic adult fiction like Mead's Succubus series either.

The Age of X series is like a bit the Harry Dresden supernatural mysteries, toss in some Honor Harrington military adventure, and a dash of Percy Jackson's world (a young adult book, but the only comparison I could find) for flavor - and you have Age of X.

The characters are well drawn, sometimes not very likeable, but very real and gritty. These are real people, not shining heroes, so if you're looking for role models, you won't find them here. These are broken people who step up to the plate when the world needs them. Involvement with drugs, alcohol, casual sex and sometimes really stupid personal life decision-making is part of these characters, but so is selflessness, love of family and friends, and courage.

The world-building is amazing. This is a future that isn't quite "post-apocalyptic," but it is very different from the one we know. It is a world where disease has ravaged the gene pool, leaving healthy mixed-bloods and genetically damaged pure bloods, but the world soldiered on. There was no war, but political divisions have remade the borders, blending some countries, splitting others, based on their cultural response to the disease.

Mead explores the concepts of religious rule versus enforced secularism, in nearly pure forms, and the cultural responses and effects on individuals, while playing into a supernatural world that neither side is ready for.

Left Hanging in the Balance

By someone

This series had me on the edge of my seat and that is the only reason I gave 4 stars. It would have gotten 5 stars had the series not ended there. But there apparently are no more books in the series and the ending just

left everyone hanging, probably dying to know what the actual ending to the story was. While the books were filled with lots of action and drama, it was disappointing in the end. What happened to Mae? What happened to Justin? Did Mae find out who her attacker was? Did the God's go to war? If so which God dominated? What happened to Tessa? What happened to Ava? So many questions left unanswered.

Walk like an Egyptian

By The Truth

I have just completed the second book. I have really enjoyed the interplay of the characters who are well developed but I feel the world building is a bit obvious - there is little subtlety as you are hit over the head with the beliefs of each "county" but the world building does contain depth even though it lacks complexity. Mead has moved away from the comfort of YA books (yuck) but still needs to make bolder strides toward adult oriented concepts and interests. Last note - the Tessa character is interesting in book one but turns into a lot of "skimming filler" in book 2
