Lacking in content

By Jack C

I really enjoy watching Gary Jenkins painting show. I thought I would buy a couple of his books for reference and to take a closer look. Save your money and watch the show. The books I purchased appear to be several years old and of inferior quality. The quality of the book content is very poor and a total waste of time. Not worth the money spent. If you really want to buy a Jenkins book buy it from his web site. The books there appear to be newer and of better quality.
