a great educational and entertaining read

By Paul

I read this book for an international business negotiation course for an MBA and found very helpful in preparing for face to face simulated negotiations. I look forward to using it in business and life in general

Best non technical text I've ever been assigned

By Collin T Fagan

Good text that gets right to the point instead of thousands of "fluff" words added. Working on my 2nd masters degree now, and this is one of the few texts that I actually sat down and read every assignment fully rather than just skim through and hit the highlights.

If all non technical texts were written like this, they would be much more effective!

Not just a business book

By CFReads

Great book. Quick read. Skillful negotiation goes far beyond work and is a useful life skill. This book was so helpful I bought a copy for each of my kids.
