Writing Essays and Making Good Arguments

By Fauzia Lala

This is a really good book. I bought this book for my Intro to Philosophy class 3 months ago and did not sell it. I am going to keep this book since it's a really informative one. This is not really about Philosophy at all. It is about how to analyze/interpret text, write good essays, make good arguments and identify fallacious ones.

So this is a very practical book. It also helps format your essay and cite your sources effectively with the MLA and CMS citing guidelines.

Mandatory for Philosophy Students

By Blair Broughton

I had to buy this for a class and I think this is one of the most useful books I have read. Philosophy teachers love to assign many papers and this made my papers much easier to write. There is a very different mindset required to write a philosophy paper from what you are used to and this helped me get rid of the normal English class fluff that I had learned to throw in. My grades on papers went up (I finally had the As that I wanted instead of the Bs I was receiving for "unneeded" information). Definitely suggest it. It's an easy read that really makes a difference.
