Magnificent! The most complete book available...

By R. Gawlitta

It makes sense that author Michael Joseph Oswald is a UW alumnus (as am I). He really left no stone unturned with his in-depth examination of America's greatest gift, our National Parks. Til now, the best available book was National Geographic Society's wonderful edition, but Mr. Oswald takes it so many steps farther.

I've made my own effort to visit the 58 designated National Parks; I'm at 53, only 5 to go. (I may never make it to American Samoa). I'm 63 years old, and started late. After seeing the Grand Canyon for the first time in '95, I became obsessed with the idea. Nat'l Geo was my guide, to this point. It's quite good, but Oswald's book gives so very much more depth in the realms of camping, hiking, lodging and accessibility, as well as the companies that may be available to guide you into the interiors of these natural wonders.

There's no end of maps and beautiful photographs, and Oswald's insight and comprehensive study provides easy to read details lacking in the other editions.

I can't say enough about the achievement, and can't believe he put it all together at such a young age. My National Park trips have been the highlights of my life; words can't express the excitement of a river rafting trip down the Colorado through the Grand Canyon. I wish I had Mr. Oswald's guide with me during other trips.

Even going online to the NPS website doesn't give you as much insight as Mr. Oswald's book. Highly recommended...MOST highly.

May I add that I'm going back to Alaska in July for Kobuk Valley and Gates of the Arctic (only accessible by plane). After that, I can do "old people" cruises to Glacier Bay and US Virgin Islands...

Great Resource

By parkman

We are taking our 11-year-old grandson to Grand Teton and Yellowstone, so this guide was timely. Our grandson is planning the trip using the guide, and it is perfect. I wanted to know the length and difficulty of the hiking trails, and they are all in there. The "Don't miss" tab on the simple maps are helpful to someone who has limited knowledge of the parks and limited time. The "thumbs up" on certain of the hiking trails saves us a lot of time. The book is simple to follow, easy to refer to while traveling, and thorough. Congratulations to the author!!!

Almost missed out...

By C Marquardt

I have been to a few of our National Parks and early this summer I was planning another trip to Mammoth Cave NP. I decided to purchase this book to help me plan my trip. I thought I had everything all worked out, but thanks to this book I read about the Wild Cave tour and quickly booked it. The tour was amazing (and rugged) and it would not have happened without the recommendation of this book. I am so glad we didn't miss out on the experience. I am looking forward to more trips and seeing what other recommendations this book can bring me, because the first one was unforgettable!
